

ACCELERATED INTEGRATED UNDERGRADUATE/GRADUATE PROGRAM (IUG) B.S. IN HEALTH POLICY AND ADMINISTRATION (HPA) – MASTER OF PUBLIC POLICY (MPP) DEGREE

What is the IUG?

The IUG provides an opportunity for academically strong students to complete a bachelor of science degree in health policy and administration and a master's degree in public policy in approximately five years of study.

How does the IUG prepare students for the job market?

The IUG curriculum provides students the opportunity to integrate strong critical thinking skills, in-depth substantive knowledge in health policy, and state-of-the-art public policy knowledge that will place them at a competitive advantage for jobs and additional graduate-level study.

Does the IUG increase earning potential for graduates?

Employers highly value a Master of Public Policy degree. According to the U.S. Census Bureau, MPP graduates earn an average of \$19,000 more than their counterparts with bachelor's degrees. Prodigy Finance reports that MPP grads can expect a 31% increase in salary.

What is the admissions process?

Applicants should generally have a minimum overall GPA of 3.2 at the time of application. Admission to the IUG is based on good progress in the student's undergraduate studies, faculty recommendations from the Department of Health Policy and Administration, GPA, and a two-page statement of purpose. Students must also apply to, and be accepted into, the Graduate School at Penn State. Internal IUG students are **NOT** required to take the GRE.

ACCELERATED IUG HEALTH POLICY AND ADMINISTRATION B.S. MASTER OF PUBLIC POLICY (MPP) DEGREE OPTION

CAREER OPPORTUNITIES

- Government
- Think tanks
- Consulting firms
- Nonprofits
- Lobbying firms

- Data Science/Analytics
- Education Policy
- Environmental Policy
- Gender Equity and Policy
- Health Policy
- Information Technology
- International Public Policy
- Labor and Employment Relations
- Racial Justice and Equity
- Social Policy

*Option to design a specialization
with Penn State faculty*

COMPLEMENTARY PROGRAMS

The substantive knowledge and analytic abilities that students acquire as health policy and administration undergraduates will complement the more advanced understanding of policy design, implementation and evaluation, and technical analytic skills, obtained in the MPP program.

A DEGREE FOR THE JOB MARKET

Health Policy and Administration students have a good understanding of the significant health problems facing the world and are often passionate about making an impact. The HPA MPP IUG helps students apply the knowledge and skills they gain from their undergraduate degree so they can identify, analyze, and solve our major policy challenges. The MPP program will help students translate the knowledge and skills that they have into good jobs with good incomes.

CREDIT REQUIREMENTS

- All major requirements for the undergrad B.S. degree in Health Policy and Administration (39 credits).
- MPP coursework (43 credits).
- Four courses during the fourth year of study will count for both the Health Policy and Administration B.S. and MPP.

CURRICULUM

- Elective specialization of four courses.
- Four courses during the fourth year of study will count for both the Health Policy and Administration B.S. and MPP.
